

LUXURY YACHT APPLICATION

PROTECT YOUR PRIDE AND JOY WITH MARINE SPECIFIED CCTV

All marine vessels need security whether in the harbour or while at sea. CCTV as an application for luxury yachts needs to be robust, able to record, able to play back, and able to be viewed live. Bikal IP CCTV brings you a suite of options in a single 3G enabled Mobile Video Recorder that will deliver exactly against these requirements. Once installed the owner will be capability to:

- View live up to eight cameras instantaneously from a single unit, from anywhere.
- Record all video footage locally and remotely
- Raise alarms and have them video timed
- Have GPS functionality within the unit

Benefits:

- Monitor the vessel and its operations when you are away
- Increased security when renting to 3rd parties
- Monitor areas of the vessel which are not viewable unless patrolled or at night
- Monitor the speed of the vessel and track fuel efficiency
- Marine Compliant Device
 - Rugged casing
 - Twin Hard drive slots
- Multi connectivity for remote access
 - 3G
 - WLAN – when returning to port
 - GPS – for tracking
 - Log in from another moving vessel/ vehicle or stationary location
- Position cameras internally and externally in the vessel
 - External cameras are IP67 rated for all weather and can be submerged in water
 - Anti corrosive housing
 - Internal cameras can be customised for interior designs and covert applications
- Integrates with existing IT network
- Stackable units for unlimited number of cameras

Bikal can provide you a complete and efficient solution
